- Digital solutions and technology services company

HotWax Systems Indore – Enterprise Software Engineer   AUG 2014 – Dec 2016
- Global leader in Apache OFBiz powered innovative ERP solutions

HotWax Systems designs, implements and supports enterprise-class, open-source digital commerce solutions powered by Apache OFBiz. As an Enterprise Software Engineer I have done followings:

Technical Skills

- » **HTML, JavaScript**, CSS   ★★★★★★★★★☆☆
- » **Angular (Version 1 , 2 and beyond)**   ★★★★★★★★★☆
- » NodeJS, ReactJs   ★★★★★☆☆☆☆☆
- » Karma / Mocha | Jasmine/ Chai / Sinon   ★★★★★★☆☆☆☆
- » **Git**, Bitbucket and SVN   ★★★★★★★★☆☆
- » Bamboo   ★★★★★★★★☆☆
- » Gulp, Grunt and Webpack   ★★★★★★★☆☆☆
- » J2SE, J2EE   ★★★★★☆☆☆☆☆
- » Apache OFbiz, Moqui   ★★★★★★☆☆☆☆

Highlights

- » Motivated to explore cutting edge technologies.
- » Tech blogger and Co-author at **Learn With Rahul**.
- » Strategic problem-solving approach.
- » Data & Service modeling.
- » Quick learner with good technical skill set.
- » Ability to work independently as well as with a team.

Accomplishments

- » Experience in implementing various Banking, payment and ERP modules using JavaScript based frameworks such as AngularJS and Java Based frameworks such as Apache OFBiz.
- » Experience in designing solution architecture for integration of Angular application within existing platforms based on different technology stack.
- » Executed POCs around the use of various cutting-edge technologies like Angular JS, Node JS & Ionic framework etc.
- » Experience in service as well as data modeling.
- » Received awards under different categories for going extra mile to achieve all the goals under time constraints.
- » Participated in 48 hours **Angular Attack hackathon 2016** and ranked under **top 50 teams.**
- » Volunteered the biggest **Hackathon (Amplitude 2017)** organized in India by **Mastercard** under **cashless bano India** campaign.
- » Listed as an **Apache OFBiz contributor**.

Projects

GDPR : General Data Privacy Regulatory System. [Mastercard]

The General Data Protection Regulation (GDPR), agreed upon by the European Parliament and Council is the primary law regulating how companies protect EU citizens' personal data. GDPR requirements apply to each member state of the European Union, it mandates a baseline set of standards for companies that handle EU citizens' data to better safeguard the processing and movement of citizens' personal data.

- » Involved in analyzing requirement and design development of the front end (**Angular v5**)
- » Implemented B2C aspect of the Systems to track and manage the personal data requests.

Customer Contact Management. [Mastercard]

It is a tool which provides Member information with cross-reference lists of principal and association members by ICA number, bank identification number (BIN), and alphabetical member name. This product enables user to search an online database for the information needed for a contact within the system.

- » Involved in analyzing requirement and design development of the front end (**Angular v4**)

Mastercard Connect. [Mastercard]

It is a B2B portal, enabling secure and targeted interactions with the customers. It is a delivered through a consistent, integrated and tailored workspace of applications and information, which helps to ensure that users have access to appropriate levels of functionality and data.

>> Involved in analyzing requirement and design development of the front end (**Angular v1.5**)
>> Involved in deployment, debugging and providing solution for platform interface related bugs and cross browser compatibility issues.

Loyalty. [Mastercard]

MasterCard Loyalty and Reward Solutions designs and manages innovative, customized loyalty programs to help card issuers acquire, retain, and grow their best customers. As a card issuer, one need every edge. They may be focusing on increasing customer purchases or changing spending patterns etc.

>> Involved in debugging and providing solution for user interface related bugs and cross browser compatibility issues.

HotWax Projects (CRM): Customer Relationship Management. [Hotwax Systems]

>> Implemented in house project of HotWax Systems to manage, track and analyze customer interactions.
>> Involved in analyzing requirement and design development.
>> Involved in designing the front end (**AngularJS**) as well as server-side programing (Service API in **Moqui**).
>> Data & Service modeling using Survey Data Model, front-end design using **Bootstrap & AngularJS.**
>> Involved in application documentation (Acceptance Test Case, User Stories, SRS and Requirement Traceability Matrix).

RCG: Rainbow Cultural Garden [Hotwax Systems]

Rainbow Cultural Garden is an early child-development program which, through careful progressive exposure to multiple languages, cultures, representational systems and aesthetics, seeks to inspire and capture the miraculous, creative, learning lives of children.

>> Involved in analyzing requirement and design development.
>> Designed and Implemented complete Angular application.
>> Involved in providing solutions for integration of the Angular application with **OFBiz**.

HotWax Commerce: Apache OFBiz powered custom ERP system [Hotwax Systems]

>> Designed various front end modules using **AngularJS**.
>> Implemented **procurement** enterprise module.
>> Involved in End-to-end designing and implementing UI/UX solutions for **service product** using workEffort model.
>> Implemented end-to-end **manufacturing** module.

Merscythe: On-line Python learning for physically impaired people [Hotwax Systems]

It is an educational product for learning the python programming language for visually impaired people. It is designed as an interactive story-based game with audio and text-based tutorials, practice exercises and story chapters.

- » Designed the store front for the product.
- » Designed and Implemented the **accessibility** functionality in the application as per the **ARIA** complaints.
- » Involved in providing solutions for the **subscription model** for their product.

Education

Oriental Institute of Science and Technology, Bhopal

Bachelor of Engineering, Computer Science and Engineering, CGPA: 7.25   2010 - 2014
